Planning

- 28th of September: presentations of Young Scientist at the University of Valencia
- The evening of the 27th (for early arrivals) and the 28th, there will be a dinner for those who want
- For master students, PhD's, postdocs, technicians etc.
- Research in synthesis and characterization of porous powders and membranes, catalysis and related technology
- To promote integration of young scientists and to increase mobility between the partners
- To reinforce the scientific communication and to make the young researchers to know each other
